DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-6 and rejected under 35 U.S.C. 102(e) as being anticipated by Pleschke et al. (6,634,702).

Pleschke et al. disclose a front face (1) that has metal structural parts embedded in at least part of a plastic cross member body. The plastic cross member includes a grid of ribs (8) and legs (9). Metal legs are embedded within the plastic legs (9). A metal cross-beam (6) has a closed cross section and laterally extending supports.

Double Patenting

3. Claims 7 and 12 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 14 and 19. When two claims in an application are duplicates or else are so close in content that they

Art Unit: 3612

both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

4. Claims 7-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 14-19 are allowed.

Response to Arguments

6. Applicant's arguments filed 3/16/2005 have been fully considered but they are not persuasive. The applicant has argued that the cross member of Pleschke et al. includes a continuous sheet metal. The cross member of Pleschke et al. is made of both metal and plastic. The examiner has pointed out the portions that are made of plastic in all rejections of claims 1-6 and 13. The applicant's claims do not require the cross member to be made entirely out of plastic. Therefore, the claims read on Pleschke et al.'s cross member.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

Art Unit: 3612

calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
